Educators play an important role in teaching children about nutritious and balanced diets. The Dairy Alliance is proud to offer classroom tools that help students of all ages learn the benefits of incorporating wholesome milk, cheese and yogurt into their diets. Our online Teacher Resources library includes school activities and science-based lesson plans, coloring sheets, games, fun facts and other helpful information to make learning about nutrition exciting. A healthy body makes for a healthy mind!

Visit The Dairy Alliance Teacher Resources website to access:

» Free lessons, state-specific activities and worksheets, colorful posters, infographics and fun, interactive games.

» “Healthy Farming, Healthy You,” “Farm to Table,” “Bones Under Construction,” “Virtual Dairy Farm Tour” and other lessons show students how milk is collected, processed and brought fresh to schools every day.

» “Meet Our Dairy Farmers” videos introduce students to life on local dairy farms.

# Virtual Dairy Farm Tour

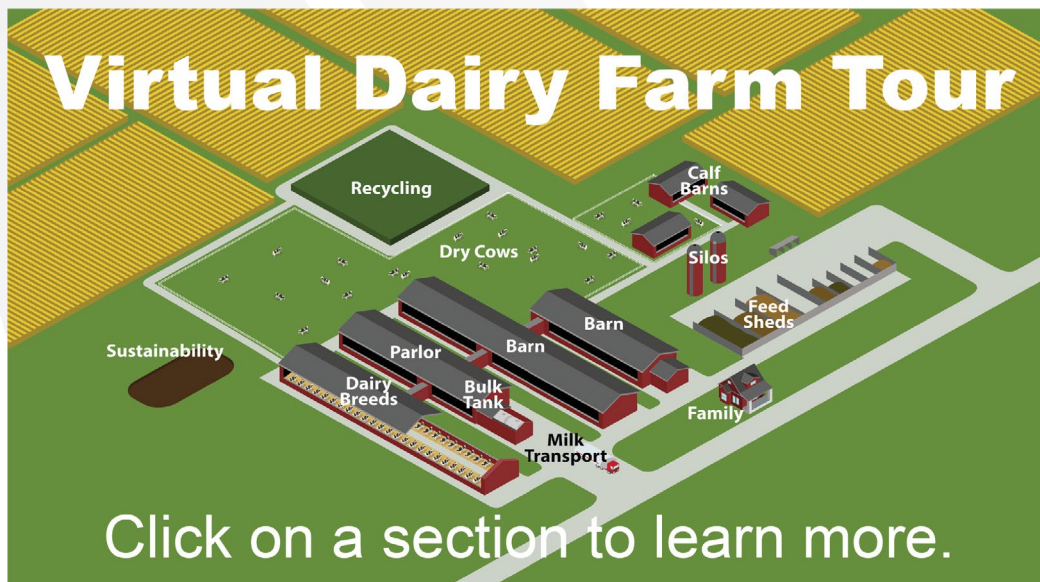

**Download Now! Available for FREE at  
[thedairyalliance.com/farm-tours](http://thedairyalliance.com/farm-tours)**

## What actually happens on a dairy farm?

One of the most common questions about dairy is, "What actually happens on a dairy farm?" For this reason, The Dairy Alliance has developed a Virtual Dairy Farm Tour. Available on the The Dairy Alliance website, this virtual walk-through explains the main functions of the modern dairy barn with brief educational videos covering topics such as milking parlors, cow care, cow feed, pasteurization, and sustainability efforts.

**Don't live close to a dairy? No problem!** The tour is suitable for learning in individual or classroom settings.
