

Have a Milk Mustache Photo Contest

Let your children be milk mustache stars!

1. Make the Milk Mustache mixture — a milkshake that leaves a great mustache on upper lips. All you need to do is blend three parts ice cream with one part milk until the desired consistency is reached. It's difficult to resist the urge to lick it off your lips, so make plenty!
2. Give each child some Milk Mustache mixture in a small cup.
3. Have them hold the cup up to their mouths and tip their cups back while keeping their heads still.
4. Make sure they keep their mouths closed as they “drink on” their mustaches.
5. Take photos. Let children finish their Milk Mustache mixture after their photos are taken.
6. Have children write a caption about why they drink milk, and post pictures around the room.
